The historical annual compounded rates of return for Canoe Equity Class A as of June 30, 2015 are: 1 year, 5.5%; 2 years, 21.0%; 3 years, 13.3% and 3.8% since inception on February 18, 2011. The historical annual compounded rates of return for the S&P/TSX Composite TR Index as of June 30, 2015 are: 1 year, -1.2%; 2 years, 13.4%; 3 years, 11.1% and 3.7% since February 18, 2011. The historical annual compounded rates of return for the Morningstar Canadian Focused Equity category as of June 30, 2015 are: 1 year, 4.2%; 2 years, 13.4%; 3 years, 13.9% and 5.7% since February 18, 2011. Commissions, trailing commissions, management fees and expenses all may be associated with investment funds. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. The indices cited are widely accepted benchmarks for investment performance within their relevant regions, sectors or asset class, represent non-managed investment portfolios, and are not necessarily indicative of future investment returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
