

This document contains key information you should know about the Series A Units of the Fiera Capital Defensive Global Equity Fund. You can find more detailed information in the fund's simplified prospectus. Ask your representative for a copy or contact Fiera Capital Corporation at 1 833 463-4372, or retailmarkets@fieracapital.com, or visit our website at www.fieracapital.com.

Before you invest in any fund, consider how the fund would work with your other investments and tolerance for risk.

On October 23, 2018, Fiera Capital Corporation ("Fiera Capital") announced that it had entered into an agreement with Canoe Financial LP ("Canoe") pursuant to which Canoe has agreed to acquire the rights to manage the Fiera Capital Mutual Funds and thereby become the manager, trustee and portfolio manager of the Fiera Capital Mutual Funds. For more details, see the paragraph at the end of this document.

QUICK FACTS

Fund code:	FCO108A	Fund manager:	Fiera Capital Corporation
Fund code (USD):	FCO108UA	Portfolio manager:	Fiera Capital Corporation
Date series started:	August 28, 2014	Distributions:	Semi-annually in June and December
Total value of the Fund on September 30, 2018:	\$166,718,738	Minimum investment:	\$500 (initial), \$100 (subsequent)
Management expense ratio (MER):	2.35%*		

*Note that the MER will be reduced as a consequence of the reduction of the management fee effective as of February 3rd, 2017.

WHAT DOES THE FUND INVEST IN?

The fund invests primarily in equity securities of companies throughout the world.

The fund will, through the use of risk and portfolio management techniques, reduce the drawdown potential that is typical of long only equity portfolios. This active management is expected to provide a margin of safety and, over the long term, smooth out the returns in comparison to long only equity portfolios.

The charts below give you a snapshot of the fund's investments on September 30, 2018. The fund's investments will change.

Top 10 Investments (as at September 30, 2018)

1	Moody's Corp.	5.6%
2	Mastercard, Inc., Class A	5.3%

Industrials	19.9%
Information technology	18.3%
Materials	3.3%
Futures contracts, at fair value	-0.1%
Net other assets	0.3%
Cash and cash equivalents	-0.8%

HOW RISKY IS IT?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk Rating

Fiera Capital Corporation has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the *Investment Risks* section of the fund's simplified prospectus.

No Guarantees

Like most mutual funds, the fund doesn't provide any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

This section tells you how Series A units of the fund have performed over the past 3 years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns:

This chart shows how Series A units of the fund performed over the past 3 years. The fund dropped in value in 1 of the 3 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past 3 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.84%	March 31, 2015	Your investment would rise to \$1,118.39
Worst return	-6.37%	March 31, 2016	Your investment would drop to \$936.32

Average return

The annual compounded return of Series A units of the fund was 11.42% since inception. If you had invested \$1,000 in the fund at inception, your investment would now be worth \$1,541.

WHO IS THIS FUND FOR?

Consider this fund if you:

- are looking for a core global equity investment with the addition of risk overlays to mitigate large equity drawdown risks
- have a medium to long term investment horizon
- are comfortable with a low to moderate investment risk.

A WORD ABOUT TAX

In general, you will have to pay income tax on any money you make on the fund. How much you pay depends on the tax laws where you live and on whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold the fund in a non-registered account, fund distributions are included in your taxable income, whether paid to you in cash or reinvested in the fund.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option if you purchase Series A Units through your representative's firm. Ask about the pros and cons of each option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Initial sales charge	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	<ul style="list-style-type: none"> • You and your representative decide on the rate. • The initial sales charge is deducted from the amount you buy and it goes to your representative's firm as a commission.
Deferred sales charge (low load option)	If you sell within: <ul style="list-style-type: none"> • 1 year of buying: 3.0% • 2 years of buying: 2.5% • 3 years of buying: 2.0% • After 3 years: 0.0% 	\$0 to \$30 on every \$1000 sold	<ul style="list-style-type: none"> • When you buy Series A Units, Fiera Capital Corporation pays your representative a commission of up to 2.5% based on the amount you paid. • You will pay a redemption fee if you sell Series A Units within 3 years of buying them. • You can switch to certain series of units of another fund without paying a deferred sales charge. The deferred sales charge schedule will be based on the date you first bought the first fund. • The deferred sales charge is a set rate. It is deducted from the amount you sell.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

The fund's annual management fee is 1.95% of the fund's value.

As of March 31, 2018, the series' expenses were 2.40% of its value. This equals \$24.00 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio (MER) This is the total of the fund's management fee (including the trailing commission) and operating expenses. Fiera Capital Corporation has waived some of the Fund's expenses. If it had not done so, the MER would have been higher.	2.35%
Trading expense ratio (TER) These are the fund's trading costs.	0.05%
Fund expenses	2.40%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you.

Fiera Capital Corporation pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

The rate of the commission is 1.00% of the value of your investment each year. This equals \$10.00 for every \$1,000 invested.

The rate of commission for the Series A units purchased under the low load sales charge option is 0.50% of the value for your investment each year for the first three years. This equals \$5.00 for every \$1,000 invested for each of those three years. The rate of commission for the Series A units purchased under the low load sales charge option is 1.00% of the value for your investment for the beginning of the fourth year and thereafter for each year. This will equal \$10.00 for every \$1,000 invested each year as of the fourth year.

3. Other Fees

You may have to pay other fees when you buy, hold, sell or switch Units of the fund.

Fee	What you pay
Short-term Trading Fee	Up to 2% of the value of units you sell or switch within 30 days of purchase. These fees are paid to the fund.

WHAT IF I CHANGE MY MIND?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or fund facts; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, fund facts or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

On October 23, 2018, Fiera Capital announced that it had entered into an agreement with Canoe pursuant to which Canoe has agreed to acquire the rights to manage the Fiera Capital Mutual Funds and thereby become the manager, trustee and portfolio manager of the Fiera Capital Mutual Funds. The transaction is expected to close during the first quarter of 2019, subject to receipt of all required unitholder and regulatory approvals, as well as satisfying other customary conditions of closing. A special meeting of the unitholders of the Fund will be held on or about January 3, 2019, or such later date, to consider the change of manager-trustee, the adoption of the Canoe form of declaration of trust as well as the implementation of a fixed administration fee. It is anticipated that certain investors in the Fiera Capital Mutual Funds that have a relationship with Fiera Capital will redeem their units on or about the closing date of the proposed transaction. Fiera Capital and Canoe are working on ways to minimize the negative impacts of such redemptions on the Fiera Capital Mutual Funds, which may require certain unitholder and regulatory approvals. If the necessary approvals are obtained, the change of manager-trustee will be implemented upon closing, the redemption of the units of the Fund currently held by investors that have a relationship with Fiera Capital will be effected on or prior to closing, and the adoption of the Canoe form of declaration of trust and the implementation of a fixed administration fee will be implemented on or about February 1, 2019 and no later than May 31, 2019 (all to be described in the information circular). In addition, upon closing, Canoe will appoint Fiera Capital as sub-advisor of the Fund and the Fund will be renamed Canoe Defensive Global Equity Fund.
