Corporate bonds	21.3%
Foreign corporate bonds	0.5%
Cash and cash equivalents	0.4%
Net other assets	0.6%

HOW RISKY IS IT?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk Rating

Fiera Capital Corporation has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the *Investment Risks* section of the fund's simplified prospectus.

No Guarantees

Like most mutual funds, the fund doesn't provide any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

This section tells you how Series O units of the fund have performed over the past 10 years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns:

This chart shows how Series O units of the fund performed in each of the past 10 years. The fund dropped in value in 1 of the 10 years. The range of returns and change from year to year and can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series O units of the fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.49%	January 31, 2015	Your investment would rise to \$1,064.90
Worst return	-4.90%	December 31, 2016	Your investment would drop to \$951.02

Average return

The annual compounded return of Series O units of the fund was 4.70% over the past 10 years. If you had invested \$1,000 in the fund 10 years ago, your investment would now be worth \$1,583.

WHO IS THIS FUND FOR?

Consider this fund if you:

- are looking for a diversified fixed income investment
- have a short to medium term investment horizon
- are comfortable with low investment risk.

A WORD ABOUT TAX

In general, you will have to pay income tax on any money you make on the fund. How much you pay depends on the tax laws where you live and on whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold the fund in a non-registered account, fund distributions are included in your taxable income, whether paid to you in cash or reinvested in the fund.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series O units of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There are no sales charges to purchase Series O Units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of March 31, 2018, the series' expenses were 0.43% of its value. This equals \$4.30 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio (MER) This is the total of the fund's management fee (including the trailing commission) and operating expenses.	0.43%
Trading expense ratio (TER) These are the fund's trading costs.	0.00%
Fund expenses	0.43%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you.

Fiera Capital Corporation pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

3. Other Fees

You may have to pay other fees when you buy, hold, sell or switch Units of the fund.

Fee	What you pay
Short-term Trading Fee	Up to 2% of the value of units you sell or switch within 30 days of purchase. These fees are paid to the fund.

Please note that the management fee were paid directly by you to the fund's manager and is not part of the MER. The management fee is negotiated between you and the fund's manager and account for a maximum of 0.50%.

In order to be eligible to subscribe to Series O Units, you must appoint Fiera Capital Corporation as your representative and as such pay us a fee based on the net asset value of all investments we managed for you.

Series O Units are only available to investors who participate in "fee-for-services" or wrap programs. You must pay an advisory fee to your representative based on the market value of your assets. The amount of the fee is determined between you and your representative.

WHAT IF I CHANGE MY MIND?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or fund facts; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, fund facts or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

On October 23, 2018, Fiera Capital announced that it had entered into an agreement with Canoe pursuant to which Canoe has agreed to acquire the rights to manage the Fiera Capital Mutual Funds and thereby become the manager, trustee and portfolio manager of the Fiera Capital Mutual Funds. The transaction is expected to close during the first quarter of 2019, subject to receipt of all required unitholder and regulatory approvals, as well as satisfying other customary conditions of closing. A special meeting of the unitholders of the Fund will be held on or about January 3, 2019, or such later date, to consider the change of manager-trustee as well as the merger of the Fund into Canoe Bond Advantage Fund. It is anticipated that certain investors in the Fiera Capital Mutual Funds that have a relationship with Fiera Capital will redeem their units on or about the closing date of the proposed transaction. Fiera Capital and Canoe are working on ways to minimize the negative impacts of such redemptions on the Fiera Capital Mutual Funds, which may require certain unitholder and regulatory approvals. If the necessary approvals are obtained, the change of manager-trustee will be implemented upon closing, the redemption of the units of the Fund currently held by investors that have a relationship with Fiera Capital will be effected on or prior to closing and the remaining unitholders of the Fund will become unitholders of Canoe Bond Advantage Fund on or about February 1, 2019 and no later than May 31, 2019 (all to be described in the information circular). In addition, upon closing, the Fund will be renamed Canoe Diversified Bond Fund.
