What does the Fund invest in?

The Canoe Premium Income Fund's objectives are to generate income and long-term capital growth by investing primarily in a portfolio of publicly-traded dividend paying common and preferred shares and income trust units of mid and large-cap issuers domiciled in Canada. The Fund will not invest more than 30% of its assets in issuers domiciled outside of Canada.

The charts below give you a snapshot of the Fund's investments on September 30, 2018. The Fund's investments will change.

Net Asset Value	100.0%

How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk Rating

Canoe Financial LP has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to medium	Medium	Medium to high	High
-----	---------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the risks of investing in the Fund?" section of the Fund's simplified prospectus.

No Guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the Fund performed?

This section shows how Series D units of the Fund have performed. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

Year-by-year returns

This information is not available because Series D of the Fund has not been distributing units under a simplified prospectus for a full calendar year.

Best and worst 3-month returns

This information is not available because Series D of the Fund has not been distributing units under a simplified prospectus for a full calendar year.

Average return

This information is not available because Series D of the Fund has not been distributing units under a simplified prospectus for twelve consecutive months.

Who is this Fund for?

Investors who:

- are investing for the medium to long-term
- are seeking income and modest capital growth
- have a low to medium tolerance for risk.

Do not invest in this Fund unless you are willing to accept the potential loss of a portion of your investment, or if you have a short-term investment horizon.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables outline the fees and expenses you could pay to buy, own and sell Series D units of the Fund. The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There is no sales charge to purchase Series D units.

2. Fund expenses:

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

The Fund's expenses are made up of the management fee, administration fee, certain operating expenses and trading costs. The Fund's annual management fee is 1.25% of the Fund's value. The Fund's annual administration fee is 0.35% of the Fund's value. Because this series is new, its operating expenses and trading costs are not yet available.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and their firm provide to you.

Canoe Financial LP may pay a trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment. The rate of commission is 0.25% of the value of your investments each year. This equals \$2.50 for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the Fund.

Fee	What you pay
Short-term trading fee	You may be charged 2% of the current value of the units, if you redeem or switch them within 30 days of purchase. The fee is paid to the Fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact Canoe Financial LP or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
