Management expense ratio (MER):	0.23%	Minimum investment:	Not available for sale

What does the Fund invest in?

The Fund invests primarily in equity securities of companies throughout the world. The Fund will, through the use of risk and portfolio management techniques, reduce the drawdown potential that is typical of long only equity portfolios. This activemanagement is expected to provide a margin of safety and, over the long term, smooth out the returns in comparison to long only equity portfolios.

The charts below give you a snapshot of the Fund’s investments on December 31, 2018. The Fund’s investments will change.

How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Canoe Financial has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the risks of investing in the Fund?" section of the Fund's simplified prospectus.

No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the Fund performed?

This section shows how Series O units of the Fund have performed over the past 4 calendar years. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

Year-by-year returns

This chart shows how Series O units of the Fund performed in each of the past 4 calendar years. This series of the Fund did not drop in value in any of the 4 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for the Series O securities of the Fund in a 3-month period over the past 4 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	12.4%	March 31, 2015	Your investment would rise to \$1,124
Worst return	-5.8%	March 31, 2016	Your investment would drop to \$942

Average return

The annual compounded return of this series of the Fund was 12.3% since inception. If you had invested \$1,000 in this series of the Fund when it was created, your investment would now be worth \$1,637.

Who is this Fund for?

Investors who:

- are looking for a core global equity investment with the addition of risk overlays to mitigate large equity drawdown risks
- have a medium to long term investment horizon
- are comfortable with a low to medium level of investment risk.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, Fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables outline the fees and expenses you could pay to buy, own and sell Series O securities of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds, series and investments that may be suitable for you at a lower cost.

1. Sales charges

There are no sales charges for the purchase of Series O units of the Fund. However, any redemption fee applicable to Series O units will be set out in the Series O agreement relating to such units.

2. Fund expenses:

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

As of September 30, 2018 the expenses of Series O securities of this Fund were 0.37% of its value. This equals \$3.70 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management Expense Ratio (MER) This is the total of the management fee (including the trailing commission), administration fee and operating expenses.	0.23%
Trading expense ratio (TER) These are the fund's trading costs.	0.14%
Fund expenses	0.37%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and/or advice that your representative and/or their firm provide to you.

We do not pay a trailing commission to your representative on Series O units of this Fund.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the Fund.

Fee	What You Pay
Short-term trading fee	You may be charged 2% of the current value of the securities, if you redeem or switch them within 30 days of purchase. The fee is paid to the Fund.
Switch fee	Series O securities are available to investors who have a fee-based account with their representative and whose representative has signed an agreement with us. Instead of paying sales charges, investors buying Series O units pay fees to their dealer for investment advice and other services. They are also available to employees of Canoe Financial and its affiliates.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact Canoe Financial or your representative for a copy of the Fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the Fund's legal documents.
